

## Pointe Coupee 4-H Shooting Sports Attendance Agreement Form

All students **MUST** complete **8** hours of practice in each/any discipline they choose to compete prior to being eligible to compete in any Regional, State, or National competition. A 4-H certified discipline instructor will verify the completion on registration forms and a certified instructor will validate the registration forms for the events.

You are required to make sure your child signs in at every practice that they attend to receive credit for their hours. It is not the instructor's responsibility to do a roll call at practices.

All 4-H shooters that are 10 years of age and older prior to **1/1/21** **MUST** complete a Hunter Safety course after they turn 10 years of age, but prior to February 1, 2021.

I understand that my child \_\_\_\_\_,

- (1) must attend **8 hours of instruction** before being eligible to compete at any Regional, State, or National competition
- (2) must **sign-in** at every practice that he/she attends to receive credit for the hours practiced
- (3) must complete Hunter Safety once he/she is 10 years of age and older before being eligible to compete at any Regional, State, or National competition
