

POULTRY DIVISION

Please note: Given the health concerns with COVID-19, there is no guarantee that the LSU AgCenter State Livestock Show will occur as advertised. With that in mind all livestock show participants and families should note that purchase and/or validation of animals is at their own risk and financial investment.

Due to concerns with COVID-19, schedules and times are subject to be changed by Show Management.

Dead broilers will not be judged. If a broiler dies during judging, the pen will retain its current ribbon group placing. However, the pen will not be able to place any higher than its placing at the time of death. (Bird substitutions will not be allowed.)

Exhibitors must be present and part of the group when their pen of birds is presented to be evaluated by the official judge. (In the past exhibitors were only required to be present during the championship judging.)

- A. An exhibitor may enter one pen of pullets and/or one pen of cockerels. This same exhibitor may also enter standard bred and bantam poultry (see special rule for bantam and standard bred poultry).
- B. An entry must consist of three broilers (either three pullets or three cockerels).
- C. The entry should weigh at least 9 pounds at the state show.
- D. After cooping, exhibitors must report their coop number(s) and all leg band numbers to the Poultry Superintendents. Exhibitors are responsible for writing the leg band numbers on their coop tags (which must be hung on the coop) and check-in sheets (which must be given to the Poultry Superintendents).
- E. Immediately after the broiler check-in deadline, Poultry Superintendents will disqualify mixed pens of broilers (i.e., pens with a cockerel in a pullet pen; pens with a pullet in a cockerel pen)

No bands will be mailed.
- H. The entry must have been purchased through the LSU AgCenter Louisiana Cooperative Extension Service, School of Animal Sciences and must have been grown by the exhibitor.
- I. Each bird participating in the event must meet federal and state quarantine and interstate regulations. Each bird brought to the show must have the following papers: (1) An individual health certificate, including premises identification number, dated within 60 days of the show, indicating the bird is free of disease and has been tested free of *Salmonella pullorum* and *Salmonella gallinarum* within the last 60 days; (2) VS Form 9-2 (bird or flock) attached to the health certificate; (a) indicating the bird is free of *Salmonella pullorum* and *Salmonella gallinarum* (pullorum and typhoid) dated within 60 days prior to the show or (b) indicating the flock of origin is under the National Poultry Improvement Plan (NPIP) and is free of *Salmonella pullorum* and *Salmonella Gallinarum* (pullorum and typhoid) dated within the past year; (3) Identification of each bird is recommended, for example, by leg or wing band, with the identification listed on the VS 9-2 form; (4) Recommend Avian Influenza testing for each bird; (5) Each bird brought to the show must indicate on the health certificate the physical location of origin and return destination for 30 days prior to and after the show.
